

## A LITTLE

## ..SHOE TALK..

We are just about to enter the bad, wet weather of winter, and a little short piece of shoe advice, free gratis for nothing won't cost anybody anything, and may possibly do some one a little good.

Now and then in the dry summer months a cheap shoe may, by careful use be made to give fairly good service, but the test of our Kentucky winter weather is too severe for anything except the very best of solid leather shoes to stand. If there is a weak spot any where in a shoe, wet weather will certainly get it out. If the counters are paper, or the insoles are paper, or the heels are paper, one day in a rain will tell the tale, whereas the shoe might have, by care, worn a couple months in dry weather.

If a shoe has spongy soles or flanked uppers, one day's wet weather will tell the tale, and your feet will be wet before you have been out an hour.

Now our advice, in view of the above facts and in the light of twenty years experience is, "don't buy cheap shoes at all, but if you will have them, buy them in the summer time, but never in the winter."

Call for the best and insist upon getting it, wherever you are trading, and our word for it, you'll spend less money for shoes than you have been spending.

Of course to get the best shoes, any little girl or boy in the public schools will tell you, you'll have to get Anderson's.

**Records to Remember.**  
Hopkinsville's great records of fire, cold, heat and water are now fixed as follows:

GREATEST DROUTH, MAY 3 TO JULY 11, 1874.

GREATEST FIRE, OCTOBER 25, 1882, 7 P. M.

GREATEST CROWD, STREET FAIR 1899.

COLDEST DAY, FEBRUARY 13, 1899, 30 DEGREES BELOW ZERO.

WETTEST SPRING, MARCH, APRIL, MAY, 1900.

HOTTEST DAYS, JULY 1, 1900, 106 DEGREES.

HIGHEST FLOOD, NOVEMBER 24, 1900, 3 to 5 P. M.

Saturday, Nov. 24, 1900, holds the high water record in Hopkinsville and probably will do so for a hundred years to come. Certain it is that no person now living can remember having seen Little River on such a raging rampage and no newspaper or other records exist to dispute the claim that all high water records have been broken by many inches.

#### It Rained, It Rained and It Rained.

Friday was a damp, bad day with frequent showers and was followed by a terrific rainstorm that lasted practically all night. In 24 hours seven inches of rain fell according to the government record kept by Mr. W. F. Randle. The result was that Little River was out of its banks and rising rapidly by 8 o'clock Saturday morning. People strolled down to the I. C. railroad and watched the muddy current and watches in hand timed the rising as inch by inch the waters crept up closer and closer to the tracks.

By ten o'clock the river touched the iron rails, supposed to be above the high water mark and the people turned away to see that the large Ninth street sewer was overflowing and filling the depression in the streets at the crossing of Ninth and water. Soon the water began to creep up Ninth towards Main and by 12 o'clock it touched Frankel's corner. Then came another pouring rain and the rise was more rapid still. Foot by foot it crept across Main street and by one o'clock the last pavement was covered and all passing stopped at Ninth and Main. But the worst had not come. Still it rose and one by one the stores on Main street were flooded. Mrs. Ada Layne was the first to suffer, then J. M. Frankel, then A. P. Harness and last Charlie Dattilo. The water first came in from under the floors, then it at the doors and did not stop rising until it stood nearly a foot deep in those on the corner. Mr. Frankel remained in his saloon with a pair of rubber boots on and at high tide at 5 o'clock the water measured in the front room 9 1/2 inches. It was fully as deep in Mrs. Layne's Millinery store on the opposite corner. In Harness' drug store it was 7 inches in front and a foot or more in the rear room, which was lower. Charlie Dattilo was flooded to a depth of six inches. At four o'clock the water on Main street was up to the hubs of vehicles. It covered the pavements on both sides from Arm-

istead's drug store on one side to Moayon's store on the other. The back water in the street extended beyond the opera house to the north and to the KENTUCKIAN office to the south. On Ninth street it extended to the rear end of the First National bank building. It rose to the door sill of the bank, but did not cover the floor. For two hours only those wearing rubber boots could get into the bank.

Every cellar on Main street from Sam Frankel's to A. M. Wallis' on one side and from Holland's opera house to Moayon's on the other was filled with muddy surface water, reeking with filth and soot from the coal yards and livery stables on Water street. Several cellars in the flooded territory were polluted in the same way.

While these things were transpiring on Main street the waters were of course getting still higher on the river front. By 2 o'clock the water had covered the floor of the I. C. passenger depot. Agent Sherwood hastily put blocks under his desks to raise them up and vacated. At the highest point the water was 16 1/2 inches deep in the depot. Ninth street and Warle street were covered by five feet to water.

By actual measurement the water was 40 inches above the pavements on either side. It rose to the porch of the Gish property, but did not flood the floors. On the opposite corner the handsome two-story houses of Lucian Dade and Anthony McClelland were under four feet of the filthy flood. Water ran in at the west window of Dade's house and stood 22 inches on the floor. The piano and folding bed were in this flood. The bedding, however, was moved upstairs and the piano was saved by its legs, as the water stopped a few inches short of the piano itself. Carpets were hastily taken up in time in both houses. McClelland also had a piano of the upright pattern that did not fare so well, as it stood nearly two feet in the water and was more or less damaged.

About four o'clock it appeared that there would be a still further rise. The weather predictions was "rain Saturday night and Sunday." The water company signal distress and telephoned that it could stand only a few inches more. The electric light company plant was only eight inches above the flood.

A colored woman named Eliza Buckner had remained in the house of Lucian Dade and she decided that she wanted to get out. The street around the house would swim a horse and it became a serious question how to get her out. Her neighbor Anthony McClelland finally found a skiff somewhere and he and Frank Allen, another colored man, got in the skiff and pushed out from the rear door of the First National Bank and were cheered loudly as they crossed Main street in the boat. They made the trip to the foot of Ninth and Allen waded in and brought the woman out on his back and got her into the boat sound and dry. The return trip was made without mishap.

Then for the novelty of navigating Main street in a boat, Mr. E. B. Basset got in the boat and

While this was going on down in the bottom on Main street, the waters were pouring in a flood across Main street north of the north bridge, rendering the street impassable and flooding houses in the vicinity. The same was the case at the south bridge, on Seventh street. The water was up to within a foot of the keystones of the double arches, practically damming the stream, and the current was flowing through Craven's livery stable on the west bank, across Seventh street and on into a Mercer Park.

The row of Mercer cabins between the Park and the river were in water half way to the eaves and were abandoned early in the day.

The Union Tabernacle stood 3 feet in water, the water inside coming four inches above the pulpit platform. The planks walks in the yard were floated away, but one of them was caught and tied to the bridge approach and saved. Yancey's Hotel stood the test well, but was finally reached and

# The First Sermon in Kentucky.

The Baptist church of this city has named the following resolutions for contributions from all members of that denomination in Kentucky: "The first sermon preached in Kentucky was on the first Sunday in May, 1775, by the Rev. William Hickman, assisted by the Rev. Thomas Tinsley, at the Big Spring in Harrodsburg, Ky., under a wide-spreading elm, from the roof of which a gavel was made and presented to the moderator of the General Association when held in Harrodsburg in 1875. "The congregation here is erecting a handsome modern house of worship at a cost of \$15,000. We are expecting to hold in a memorial tablet or window commemorating the above event. We have raised in the congregation here \$10,000. As this is a church commemorative of that historic event we have thought that every Baptist in Kentucky would like to claim the privilege of putting into this new structure at least one brick."—Harrodsburg Democrat.

Winter may be said of the scientific facts upon which the Rev. R. H. Hicks has yearly for years of storm and weather. It is a remarkable fact that the weathering of every great storm, flood, cold wave and frosts have been plainly printed in his no. famous Almanac for many years. The latest astounding proof of this fact was the destruction of Galveston, Texas, on the very day named by Prof. Hicks in his 1901 Almanac. As one of disaster by storm along the Gulf coast. The 1901 Almanac, by far the finest, most complete and beautiful yet published, is now ready. This remarkable book of near two hundred pages, splendidly illustrated with charts and half-tone engravings, goes as a premium to every subscriber who pays one dollar for Prof. Hicks' Journal, Vows and Woes. # PEDDLES MEDICINE.

Former Governor Lady of Kansas Adopts New Business for Resolving His Fortune.

Out in Kansas during the last few years many men have leaped into sudden political prominence, and with equal suddenness have gone back into almost complete obscurity. Among the more recent and spectacular of these political meteors is former Gov. John W. Leedy, who has started out to peddle a new patent medicine through the state.

In explaining his action Mr. Leedy points out that as governor his salary was but \$30,000 a year, and that he was compelled to get in a memorial that sum to maintain the dignity of the office. When his term expired he

HON. JOHN W. LEEDY.  
(Kansas Ex-Governor Now Engaged in the Medicine Trade.)

had some money, and with that as capital he went into the Kansas city zinc districts, where he made speculations which proved disastrous. As a result he found himself practically penniless. Then a well known Kansas physician made him a proposition to go into partnership with him in the manufacture of a patent medicine, and Leedy took him up. He declares that he feels no loss of dignity and is not troubled with false pride in starting out with his wagon.

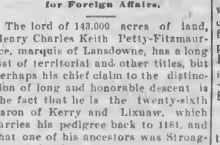

"I must have an income," he says, "this man can't make a business of being governor. We have something to sell, and it is my business to find customers. I am simply doing what hundreds of men have done before me. Because I have been a little unfortunate in financial matters, is that any reason why I should lie down and give up the fight?"

# MARQUIS OF LANDSOWNE.

Public Career of the Peer Who Was Made British Secretary for Foreign Affairs.

The lord of 143,000 acres of land, Henry Charles Keith Petty-Fitzmaurice, Marquis of Landsowne, has a long list of territorial and other titles, but perhaps his chief claim to the distinction of long and honorable descent is the fact that he is the twenty-sixth baron of Kerry and Lixnaw, which carries his pedigree back to 1811, and that one of his ancestors was Strongbow, earl of Pembroke.

The present marquis, the fifth, is 55 years old. His mother was a daughter of Count de Valbault and Harcourt Keith and Nairn. He entered official life at the age of 24, when, as a warm adherent of Mr. Gladstone, he was made one of the treasury. After three years in this office he became under secretary for war, holding the post two years.

MARQUIS OF LANDSOWNE.  
(Just Appointed British Secretary for Foreign Affairs.)

In 1880 he was made under secretary for India, but resigned the office the same year because of his dissent from the home rule policy.

From 1883 to 1888 he was governor general of Canada, and followed this by a term as viceroy of India, being named by Lord Salisbury, with whose imperial policy he has strongly identified himself. His governorship of India from 1888 to 1893 was less remarkable for domestic reforms than for his work in strengthening the frontier defenses and building strategic railways.

An exhaustive study of the nails of the hand has been made by P. A. Minakoff, and some of the results appear to be of medico-legal importance. "Among other things," says Popular Science, "he asserts that the nails of the right hand in a right-handed person are wider by one-half to two millimeters than the corresponding nails of the left hand; while in a left-handed person the reverse obtains, and in the subdextrous the nails are of equal size on the two hands. Demand For Best Cattle.

For many years to come the prices of cattle must be good, especially for the better class of meat, says an exchange. The recent depression had the effect of checking the breeding of cattle of all kinds and the number of cattle in the country fell at any rate for a number of years. Says the Farmer's Record: The result of that curtailment of the cattle supply is that the base on which to produce the vast numbers now annually required is restricted. There is another factor that enters very largely into the solution of the problem and that is that the people are demanding more than ever a finer quality of meat. There was probably never a time when the difference between the poorest and best meats in the markets was so great as it is today.

If the voting machine is a guard against the party machine, it cannot be too quickly adopted in all the States.

A childless home is a cheerless one. The maternal instinct exists in every woman, and when it is ungratified she is deprived of much of the happiness of life. It often happens that childlessness is due to some cause which can be removed, and often is removed by the use of Dr. Pierce's Favorite Prescription.

The vigor and vitality which this remedy imparts to the delicate womanly organs, puts them in a condition of normal health, the lack of which is often the sole obstruction to maternity. Every woman should read Dr. Pierce's Common Sense Medical Adviser, a book containing 1008 pages and 700 illustrations. It is sent entirely free on receipt of stamps to pay express and mailing only. Send 21 one-cent stamps for the paper bound volume, or 31 stamps for cloth covered. Address Dr. R. W. Pierce, 663 Main Street, Buffalo, N. Y.

Gov. Longino, of Mississippi, had J. E. Gibson, a contractor, of Loganport, Ind., arrested for offering him a bribe in connection with the awarding of the contract to build the new \$1,000,000 state house. Gibson, after beating around the bush awhile, finally offered the Governor \$15,000 to open the sealed bids a day ahead and let him underbid the lowest one. The Governor had him repeat the proposition in the hearing of his secretary and then ordered his arrest. The penalty is \$1000 fine and 60 days in the penitentiary. Gov. Longino seems to be made of the right stuff. It is now up to Gov. Mount to explain whether Gibson got his idea of Governors from the Indiana article.

Coroner Hugh M. McCullough, of Louisville, who shot and killed one of his neighbors in a quarrel over a dog, was acquitted last week. The attorney appointed to represent the dead man, hurt the prisoner's feelings by suggesting that he might have killed the dog and let the man live.

## THE SECOND ATTEMPT

Within a Few Weeks To Burn a Large Business Block At Princeton.

Princeton, Ky., Nov. 23.—An attempt was made about 11:30 o'clock to-night to burn the Kevill block, one of the largest business blocks in the city. The plastering was torn off in a front stairway, and the laths soaked with oil. If the blaze had not been discovered at the time it was the entire square would probably have been burned. This is the second attempt to burn this building in the last few weeks.

A Village Blacksmith Saved His Little Son's Life.

Mr. H. H. Black, the well-known village blacksmith at Grahamsville, Sullivan, Co., N. Y., says: "Our little son, five years old, has always been subject to croup, and so bad have the attacks been that we have feared that he would die. We have had the doctor and used many medicines, but Chamberlain's Cough Remedy is now our sole reliance. It seems to dissolve the tough mucus and by giving frequent doses when the croupy symptoms appear we have found that the dreaded croup is cured before it gets settled. There is no danger in giving this remedy for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by all druggists."

## Royal Arcanum Meeting.

The Royal Arcanum will hold a special meeting to-night in the Knights of Pythias hall. Several candidates will be initiated. Special Deputy J. H. Boaring will be present and assist in the work. A full attendance is desired. The hall is located at the corner of Third and Main streets. Last His Fattening Hogs. James Kelly, a farmer living on the west side of Bond River, lost 100 head of hogs in a pen on the river banks. Saturday morning his hogs and all were gone. The hogs were all fat and some of them were worth \$100 each. Kelly says he was not able to find out who stole them.

## WHOLESALE SLAUGHTER

Of Swine by Thieves, Near Ringgold, Tenn.

Hog thieves are at work in the Ringgold neighborhood, not far from Kennedy. Last Tuesday night two of them entered the smokehouse of C. A. Shaw, of that place, and stole all his bacon, besides killing a couple of fattening hogs in his pen and carrying the meat away with them. Thursday night they returned and killed a couple of hogs belonging to Mrs. Green. Saturday night they entered the mill yards and killed a nice porker belonging to W. P. Hambaugh.

## READY FOR OPERATIONS.

Luckett's Tobacco Factory at Gracey Already Receiving Weed.

Mr. T. D. Luckett's tobacco factory at Gracey is now ready for business and the prospects are that a very large amount of the weed will be handled this season by this house. Mr. Luckett has already begun the purchase of tobacco and the first delivery at his new house was made November 23. He is now operating five stemmeries in various sections of the dark tobacco district and is a wide awake tobacco man with many years of experience in the business. Mr. Luckett or some of his men, will make a canvass of the surrounding country, having already seen the crops of many farmers and made a number of purchases, which will be delivered as soon as possible. The Gracey factory is a great business enterprise, affording the farmers of that section a near-by market for their weed, and it is safe to predict that the new house will do a satisfactory business. A large number of hands have already been employed and more will be secured as their services are needed. Mr. Luckett proposes to give the top prices of the market at all times and planters would do well to see him before selling their crops.

## LOWER COURT AFFIRMED.

Rube Ross Must Serve Life Sentence in Pen.

The Court of Appeals has affirmed the judgment of the Livingston circuit court in the case of Rube Ross against the Commonwealth. Ross, aged twenty years, killed Walter Hoods, a boy of seven. He was given a life sentence in the penitentiary. This is the second time that the case has been before the court here.

## A Great Medicine.

"I have used Chamberlain's Cholera and Diarrhoea Remedy and find it to be a great medicine," says Mr. E. S. Phillips, of Potosi, Ark. "It cured me of bloody flux. I cannot speak too highly of it." This remedy always wins the good opinion, if not praise of those who use it. The quick cures which it effects even in the most severe cases make it a favorite everywhere. For sale by all Druggists.

## RECORDS BROKEN.

(Continued from First Page.)

covered by 2 inches of water on the lower floor.

The beer houses between the freight depot and the river built on high piles were reached and the floors covered a foot or more deep.

Boxcars on the terminal tracks were covered above the wheels.

Perkins & Williamson's office was four feet under water. Their iron safe was entirely submerged. In Monte's factory across Eighth street water was 20 inches deep. The freight depot was water proof, but the tide rose to within a foot of the high floor.

### The Tide Begins to Ebb.

Then came the turn in the tide. At 5 o'clock the waters stood stationary, then a little later began to recede. Very slowly at first then by very rapid stages.

By 10 o'clock at night Main street was free from water, but covered with a coating of slippery slime. But the worst was over and everybody felt easy and satisfied to know that the city would not be left in darkness to battle with the angry waves.

Sunday morning found the river inside its banks, swollen still but no longer a menace to life and property.

The I. C. trains had been called off early Saturday, but the regular morning train came in Sunday at 10 o'clock and the usual schedule was resumed. A wrecking crew came in and began cleaning up. The lumber floated from the new depot building was gathered from about the streets. The depot itself was dried up and cleaned. The platform was to be badly damaged. It had been raised up by the water, undermined and warped out of shape in settling back.

A large pile of lumber weighed down by the river bank, near the depot, weathered the storm and was not carried away, though almost covered at one time. It belonged to Forbes & Bro.

### The Record Broken.

Mr. J. A. Twyman, the street superintendent, was one of the last to admit that the flood was a record breaker. He maintained up to noon that the river was higher, in 1867, but by the middle of the afternoon he admitted that he never saw the river so high.

As a matter of fact the water was nearly two feet higher than ever before. The railroad tracks were supposed to be above previous high water marks and they were covered by nearly two feet at the highest point and completely submerged.

Dr. Keiser is a most excellent lady, highly cultured, and has made many friends in this city, who regret to see her leave.

Her successor has not yet been appointed.

**DR. WHARTON VINDICATED**

All the indictments against him Are Dismissed.

All the indictments against Dr. H. M. Wharton, the well-known evangelist, have been dismissed in the New Jersey courts.

It will be recalled that while in Louisville last week, Dr. Wharton received a telegram to the effect that the indictment charging him with obtaining money under false pretenses had been quashed, and now the news comes that the remaining indictments charging him with obtaining money on the property have been dismissed, which completely vindicates Dr. Wharton. He is now in Webb City, Mo., conducting services.

# Quality

It is the high quality of Royal Baking Powder that has established its great and world-wide reputation.

Every housewife knows she can rely upon it; that it makes the bread and biscuit more delicious and wholesome—always the finest that can be baked.

It is economy and every way better to use the Royal, whose work is always certain, never experimental.

There are many imitation baking powders, made from alum. They may cost less per pound, but their use is at the cost of health.

merged to the bend of the river at Thirteenth street. The water stood on a level with the second step of the Phoenix hotel. It reached that point once before, but that was when the step was two feet lower, before the streets, pavements and all were raised several years ago.

**Bridge Washed Away.**

The new bridge on the Green-ville road was badly washed out and will require expensive repairs.

**A Narrow Escape.**

A four-mule team belonging to Mr. W. A. Glass was swept out of the road and over a wire fence into Mr. C. G. Duke's field. Four negro men were in the wagon and men and mules had a narrow escape, but all escaped without injury, except that one mule was cut on the fence. The mishap occurred at the bridge on the Cox's Mill road.

**Huffman's Mill Bridge Gone.**

The new iron bridge over Little river, below Huffman's mill, was washed away and has not yet been found. It was built only a few years ago at a cost of several hundred dollars.

**Damage To Crops.**

All along the rivers in all parts of the county, immense damage has been done to corn and other crops still in the fields. J. R. Reevs has a part of his corn crop flooded near Edwards' Mill and J. E. Moseley lost about 200 bushels of sorghum cane. In other neighborhoods similar losses were sustained and everywhere fencing was swept away as never before.

**Pumping Out Cellars.**

The city engine began yesterday pumping out flooded cellars. It will be kept up until all are emptied.

**Plenty of Water at Gracey.**

At Gracey the water also broke the record. J. P. Meacham's house opposite the I. C. depot was left only 3 inches above the water. It was a close shave but he managed to keep dry, but moved his family out.

**By Government Gauge.**

The rainfall in Hopkinsville from Friday morning at 6 a. m. to Sunday evening at 6 p. m. was 9.37 inches. From Friday night to Saturday night it was 6.18 inches. This was the heaviest rainfall ever recorded here.

**Twenty-one inches Higher.**

Mr. J. M. Hopkins, one of the oldest inhabitants, says the water was 21 inches higher than his highest water mark in 1871.

**Up In The Jail.**

The water stood four inches deep in the county jail, on the first floor, and the prisoners were all moved to the upper cells.

**LOCATED.**

Newport, Ky., Nov. 22.—Frank Brown, who robbed the German National Bank of this city of \$195,000, has been heard from in Mexico. He says that he is willing to come back and face the consequences of his crime. The stockholders of the bank will reorganize it.

## OLD AGE

### Causes Death of Woman Well Known Here.

Mrs. Verinda S. Cole, widow of the late Samuel E. Cole, died at her home in Elkton last Tuesday, at the advanced age of eighty years. Death was due to the infirmities incident to old age. She had been a member of the Christian church for sixty-seven years and has relatives in this city. Concerning her death the Elkton Progress says:

"Mrs. Cole was perhaps Elkton's oldest citizen, being 80 years of age. She had lived here nearly four score years and was known of everybody as a good woman. The deceased was the widow of Sam. Cole, Elkton's first jeweler, and the pair were parents of nine children, five of whom are living.

Mrs. Cole led a quiet and peaceable life and was always respected by her neighbors and acquaintances."

**KNIGHTS OF PYTHIAS.**

The regular Semi-Annual election of officers of the Knights of Pythias lodge resulted as follows:

G. E. Dalton, C. C.; Geo. F. Campbell, V. C.; Claude B. Smith, Prelate; W. D. Ennis, M. of W.; Green H. Champlain, M. of E.; W. C. Wright, M. of P.; George W. Walker, M. at A.; Lucien H. Davis, Geo. W. Phelps and W. D. Ennis were chosen trustees.

**Women as Well as Men Are Made Miserable by Kidney Trouble.**

Kidney trouble preys upon the mind, discourages and lessens ambition, vigor, courage and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling of the thousands of testimonials letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

**Will Deliver Famous Lecture, "Poetry and Pearls."**

Hon. Alf Taylor will deliver his famous lecture, "Poetry and Pearls," at Holland's Opera House this evening. That he will have a crowded house goes without a saying. Below will be found a few extracts from editorial comment on the lecture by some of the leading journals of the day:

Chattanooga News—"Mr. Taylor came as near, perhaps, to describing the beauties of woman and love as any man ever will."

Richmond (Va.) Dispatch—"The oration was one of the finest ever heard from the rostrum."

Chattanooga Times—"Hon. Alf Taylor's tribute to woman and her tears was a touching and tender eulogy, though it evoked many a laugh at the expense of weak man."

Carrollton (Ga.) Free Press—"All who attended were delighted with the poetry and pearls that fell from the eloquent lips of the distinguished orator."

Des Moines (Ia.) News—"The lecture of Hon. Alf Taylor was a brilliant success. In sentiment, pathos, and in bright flights of fancy he is the equal of his famous brother, Gov. Bob Taylor."

Col. A. S. Colyar, Nashville, Tenn.—"To have heard 'Poetry and Pearls' is the pleasure of my life."

Judge Sykes, Aberdeen, Miss.—"Hon. Alf Taylor's lecture on 'Poetry and Pearls' is magnificent; his philosophy is correct; his diction is without a parallel."

### Big Reduction in Taxes to Be Made Next Year.

Washington, Nov. 22.—The Republican members of the Ways and Means committee made such progress with the bill to amend the war revenue law that it is expected that the first draft will be completed by to-morrow night. The committee decided today to make the bill for the reduction of thirty million dollars a year. This is the amount suggested by Secretary Gage yesterday, and it is understood meets the views of the president. In fact, the members of the ways and means committee who was the president last evening say that before Secretary Gage appeared before the committee the whole matter had been carefully considered by the president and the secretary.

Briefs of interested parties are being received and considered, but the committee has given no hearings and will not do so. Gen. Grosvenor was not at the meeting today, having gone to Ohio for a few days.

## BEST SECTION

Captured by Small Town on St. Louis Division.

The L. and N. inspection train which passed through this city one day last week bearing the officials of the road has returned to Louisville, after a two weeks' trip which covered nearly every mile of track of the great system. A number of prize awards were made. The prize for the best division was awarded to the Montgomery division, the figures being 8.33. The best section was captured by Addysville, Ill., a small town on the St. Louis division. The average was 9.34. While all the averages have not been figured up yet, it is known that they will be much larger than last year.

## Kentucky Educators Honored.

President R. B. Fulton, of the Southern Educational Association, has made his announcement of officers for the year. Kentucky has a representative on each committee. Prof. W. H. Bartholomew, of this city, is Kentucky's member of the Executive Committee; Col. M. H. Crump, of the Oglethorpe College, Bowling Green, is a member of the State directors, and Prof. S. L. Froge, of Frankfort, is the State manager for Kentucky. The Association meets this year on December 27, 28 and 29 at Richmond, Va.—Post.

"Pull up!" That's the counsel very often given by a well meaning person to a friend who is slipping down the road of alcoholism. And when the answer comes "I can't stop," the man is perhaps reproached for the cowardice of that phrase, "I can't."

But, indeed, there is no form of disease, and there may come a time in the progress of any disease when it can be stopped. That's what we mean when we talk of "galloning consumption." It's like a horse, running away with us. We can't stop it.

Strength will stop the wildest horse. Strength the great necessity in the stopping of disease. Dr. Pierce's Golden Medical Discovery has cured thousands who had obstinate cough, bronchitis, weak lungs, spitting of blood, emaciation, and similar ailments which if neglected or uns skillfully treated lead to consumption. It cures by strengthening the lungs and giving them power to throw off disease.

"I had been troubled with bronchitis and cough and at times great difficulty in breathing," writes W. H. Bartholomew, of Addysville, Ky. "A portion of the time my appetite was poor and I was unable to do anything. I had been treated by several doctors for several months with little benefit. I had been reading about Dr. Pierce's Golden Medical Discovery and I decided to try it. I took several bottles of it until I had taken seven bottles before I was able to take food. I continued taking it until I had taken seven bottles as hard a day's work as any man. I advise all who are afflicted with the above named ailments to try Dr. Pierce's Golden Medical Discovery."

"A portion of the time my appetite was poor and I was unable to do anything. I had been treated by several doctors for several months with little benefit. I had been reading about Dr. Pierce's Golden Medical Discovery and I decided to try it. I took several bottles of it until I had taken seven bottles before I was able to take food. I continued taking it until I had taken seven bottles as hard a day's work as any man. I advise all who are afflicted with the above named ailments to try Dr. Pierce's Golden Medical Discovery."

**STRENGTH WILL STOP THE WILDEST HORSE.**

Strength the great necessity in the stopping of disease. Dr. Pierce's Golden Medical Discovery has cured thousands who had obstinate cough, bronchitis, weak lungs, spitting of blood, emaciation, and similar ailments which if neglected or uns skillfully treated lead to consumption. It cures by strengthening the lungs and giving them power to throw off disease.

"I had been troubled with bronchitis and cough and at times great difficulty in breathing," writes W. H. Bartholomew, of Addysville, Ky.
